Initial Five-Year Service Quality Improvement Plan – 47 C.F.R. §54.202(a)

Cambridge Telephone Company ("CTC") submits its initial five-year build-out Service Quality Improvement Plan pursuant to C.F.R. §54.202(a)(1)(ii) that specifies the proposed improvements or upgrades to CTC's network throughout its service area. In addition, CTC is providing information that includes an estimate of the population that will be serviced as a result of these improvements. The receipt of USF support, combined with other funding sources will allow CTC to continue to meet its broadband obligations within its service area, complete service request within a reasonable amount of time, provide reliable, state-of-the-art, high-quality voice and broadband service to its over 900 rural customers in 2 wirecenters of CMBRNEXSDSO, and BTLNEXSRSO.

CTC has a proven history of providing innovative services to its customers. In 2008 CTC installed its Genband softswitch and began migrating its customers from a TDM network to a VoIP network and today has completed 100% migration. In addition has deployed ASDS2+ technology and 100% of CTC's customers are capable of receiving 4/1 Mbps DSL speeds today. As further proof of CTC's commitment to providing state of the art broadband services, CTC currently has deployed active FTTH technology to nearly 90% of its current subscriber base today
